📍 P.O Box Mangowall Gharbi, District & Tehsil Gujrat

PROFILE

Full Stack Developer Intern with experience in React.js and MERN stack development. Skilled in building responsive web applications, RESTful API integration, and state management. Familiar with backend development and database handling. Currently learning Artificial Intelligence and working on AI-related projects. Seeking to apply technical skills in a professional software engineering environment.

EXPERIENCE

VisionBird

Nov 2025 – Present

Full Stack Developer Intern

Gujrat, Pakistan

- Developed and maintained full-stack web applications **using React.js, Node.js/Express, Firebase, and MongoDB** including dashboards, CMS panels, and authentication systems
- Built a complete e-commerce platform (HairLocs) with features like cart, checkout, product management, order system, and integrated AI chatbot (Groq API) for user assistance
- Worked in an agile team using Git/GitHub (branches, PRs, conflict resolution) while independently managing development, deployment, and code improvements

PROJECTS

Genetic Insight

Final Year Project

ML-Based Bioinformatics SaaS Platform

- Developed an AI-based genetic data analysis platform to process biological datasets and generate predictive insights
- Implemented machine learning workflows for data preprocessing, feature extraction, and model-based predictions
- Built a full-stack interface for dataset upload, analysis visualization, and result management

TheHairLocs

Live Demo

E-Commerce Platform

- Built a full-stack e-commerce platform using React.js and Firebase with authentication, cart, checkout, and admin management
- Integrated Firestore, Firebase Storage, and ImageKit for real-time data and optimized media handling
- Developed an AI chatbot (Groq API) to provide hair care assistance and product guidance

WeatherApp

Mini Project

Real-Time Weather Information App

- Developed a weather application using APIs to display real-time temperature, humidity, and forecast data
- Designed responsive UI and optimized user experience for multi-device support

EDUCATION

University of Gujrat (UOG)

4 Years

Bachelor of Science in Information Technology

Gujrat, Pakistan

- **Final Year Project:** Genetic Insight — AI-based genetic data analysis system

Government Swedish Pakistani College of Technology Gujrat(GSPCT)

3 Years

Diploma of Associate Engineering (DAE) in Electronics

Gujrat, Pakistan

- **Final Year Project:** Industrial Motor Automation System Using PLC (Control of single and three-phase motors)

SHORT COURSES

Advanced Web Application Development — Full-stack concepts, modern web architecture, and deployment practices

AI for Autonomous Vehicles and Robotics — Fundamentals of AI systems, robotics perception, and autonomous decision-making

SKILLS

Programming Languages: JavaScript, Python, C++, SQL, HTML, CSS

Frontend Development: React.js, Material UI, Responsive Design, State Management

Backend Development: Node.js, Express.js, REST API Development

Databases: MongoDB, Firebase Firestore

AI & Machine Learning: Machine Learning Basics, Data Preprocessing, AI API Integration (Groq API)

Tools & Technologies: Git, GitHub, Firebase, ImageKit, VS Code, Figma

Concepts: Full Stack Development, API Integration, Authentication, Agile Workflow
